

Stereo Snares

loops de la Crème - August 2019

Thank you for downloading this sample pack!

This is a collection of snare samples recorded using various stereo microphone setups.

12 different snare drums were used with various heads, tuning and muting techniques to achieve a wide range of sounds.

The snares were played with different sticks and brushes, and the samples feature different amounts of natural ambience from various rooms.

The collection features samples with various amounts of processing:

- raw samples: no processing, natural sound and decay
- Naturally processed samples with slight compression or equalisation to easily fit your tracks
- 'gated' samples where the room ambience was skillfully cut-out to create typical gated reverb snares.

The 178 samples are organised in 9 category folders:

BRUSH

A collection of stereo snare samples recorded using various brushes (metal, nylon, wood...)

DEEP

Snares with deeper shells, tuned real low to get extra bass, and a natural deep sound.

FAT

Big, short, and truly punchy: these snares are fat!! Recorded using lower-pitched snares and heavy muting.

HIGH

A collection of piccolo and higher-pitched snares. Funky and original!

LONG

Samples with long, natural decay (up to 5 seconds). Played without muting techniques.

RIMSHOT

Full-sounding snares played with a rimshot technique. Sharp sound, with metallic overtones.

ROOM

Snares with a lot of natural ambience, recorded further away from the microphones. Easy to fit in a mix!

SMOOTH

These samples feature smoother transients and mellow attacks. Smooth and warm, great for natural sounding snares.

WIDE

A selection of super-wide snares with extreme stereo effect. Very 3D!!

All samples are stereo WAV, 24bit, 48kHz.

Enjoy the samples and be creative :)
